

IT Security Engineer (m/f/d)

We are looking for a motivated **IT Security Engineer (m/f/d)** to join **sunhill technologies GmbH** and **influence the future of mobility and payment** by fulfilling exciting and challenging projects. We are looking for motivated individuals to work on cutting-edge technologies with sunhill's big variety of partners. As a **subsidiary of Volkswagen Financial Services AG**, we keep the agile start-up spirit alive while leveraging the global reach of a worldwide successful automotive player.

You are looking for team spirit, creativity and an openness to new ideas? You have a passion for new technologies? What are you waiting for? **Join our international team to manage, develop and scale mobile payment systems for a global market.**

Your tasks at sunhill

- Leveraging and improving SIEM systems by connecting security-relevant data points to provide better insight for the security, administration and software development teams
- Manage tools to automate reporting on vulnerabilities and IT risks
- Review and improve the overall IT security architecture
- Perform penetration tests and collaborate with software developers and system administrators to improve the security of our products by setting up concepts to avoid similar security bugs in the future

You should be able to offer

- Networks and network equipment (DNS, routing, switching, 802.1x, TLS, VPNs, ...)
- Operating systems security (Windows, Linux)
- Penetration testing experience (you are able to test systems for infrastructure and application security)
- Scripting skills with python, bash, ...
- Experience with the SIEM tool Splunk or similar tools and with incident response management
- Experience with Nessus, InsightVM, Qualys or similar tools

- Experience as a system administrator for Linux and Windows operating systems
- Experience as a Java software developer
- Experience in managing cloud infrastructure security (Amazon AWS IAM)

What we can offer you

- A young and international company culture in a start-up work environment
- Strong team spirit and regular team building events
- Strong company vision to build the global leader in digital parking
- "Flex-time" employment
- Competitive salary and additional performance-based rewards
- Support for further education, training and professional development
- Modern IT equipment

Are you curious? Then please send your application stating your earliest entry date to jobs@sunhill-technologies.com and help us develop mobility and payment solutions!
